Digital/Online Consultation (40min)

€50

Your consultation fee is only redeemable once you spend over €120 on retail.

A consultation with our Clinic Director and Clinic Manager is €50.00 and not redeemable of any service or retail product.

A skin consultation with a skin specialist is key when it comes to finding a skincare programme to suit you.

No two skins are the same so a tailor made programme will deliver the best results. Every first visit to the clinic starts with a skin consultation. This is done to give both a professional skin analysis and to ascertain your own concerns and goals for your skin. We truly believe in the importance of the right daily home care and will spend time making sure your plan is bespoke to your skin.

The consultation takes 30 - 45 minutes and will include an in-depth skin analysis using our digital skin analysis machine. We will advise the best homecare plan and in salon treatment plan suited to your skin concerns.

Tips for best results:

- On the day of your appointment, we ask that you cleanse your skin the morning of the consultation and apply no moisturisers, serums or makeup. This gives us a clear view of your skin in its natural state. Freshly cleansed skin can remove surface oils that are important for us to see as part of the consultation.
- We also ask that you bring along any products you are currently using on your skin. Whenever possible we will try to work with the products that you have and may add some recommendations suitable to your skin.
- We advise a photo to be taken on day 1 and monthly afterwards to monitor changes.

Collagen Stimulation Therapy €250
Course price is available

This is a cutting-edge treatment technique that harnesses your body's natural powers of healing to increase collagen and achieve incredible results. The body responds to CST in the same way it would react to an injury. The small amount of bleeding caused during treatment releases powerful growth factors which are part of a natural healing response, resulting in increased collagen and elastin production. It is especially effective for addressing the visible signs of ageing as well as sun damage, scarring, slackened skin, stretch marks, uneven skin tone and dilated blood vessels. Patch test required 48 hours prior to treatment.

Consultation and Patch Test required for this treatment.

NEW TCA Peel (60-80min) €130

What makes Environs philosophy to Peels so unique and different is its specific "kind to the skin and barrier protecting approach", it is also known as the peel that doesn't peel. It's got minimal to no downtime.

Rejuvapen Needling

The rejuvapen is a remarkable, non-laser, non-surgical treatment that causes skin to stimulate collagen production and fresh, new tissue. Skin tightens; wrinkles, fine lines, scarring, and hyperpigmentation significantly diminish; pores become finer; and the overall health and circulation of the skin is improved. The instrument itself utilizes what is called medical micro-needling, and in Rejuvapen's case, 9 micro-needles are used on the skin to create thousands of invisible and virtually painless perforations. By creating these microscopic channels in the epidermis, the body immediately responds by increasing the formation of new tissue to refresh mature skin, as well as releasing of growth factors that promote scar and hyperpigmentation repair and healing. Adjustable needle length from 0.2 to 1.5mm allows customized treatments from skin freshening to deep scar repair anywhere on the body.

After the initial treatment, patients often notice that their skin has a healthy pink glow and that fine lines are diminished.

Skin naturally takes roughly four weeks to synthesize new collagen, but it is not until about four months that patients can see the full effect of Rejuvapen treatments. It is suggested that patients receive four treatments, spaced at least two weeks apart.

Consultation and Patch Test is required for this Treatment

How DMK Enzyme Therapy Works

The skin treatment that achieves long term results. DMK's focus is on improving the long-term health of the skin, not on quick fixes.

The skin's chemistry is an ecosystem and functions similarly to a factory, the product that the factory produces is what you see on the skin's surface. The DMK concept REMOVE, REBUILD, PROTECT and MAINTAIN works to regulate and enhance the internal functions and structures of the skin to maximum capacity. DMK is the only sole company which uses the transfer of messenger enzymes in their DMK Enzyme Therapy which is used as the base of all DMK treatments to oxygenate, strengthen, nourish and tone the skin. To encourage the skin to perform like younger, healthier skin DMK's signature Enzyme Therapy works alongside DMK skin protocols and Home Prescriptive programs to achieve long-term results.

What is Enzyme Therapy?

ENZYME THERAPY is DMK's world renowned, signature skin revision treatment designed to rapidly restore the health and natural functioning of your skin enabling it to perform just as it did when it was younger. This is the only company in the world to utilise the benefits of transfer enzyme messengers. Enzyme therapy stimulates your facial muscles and works from WITHIN the skin to leave it firm, healthy and nourished. Ageing and other skin problems are the result of a loss of functioning in the skin. ENZYME THERAPY helps to quickly restore lost functioning enabling the natural processes of the skin to return to normal.

What are Enzymes?

Enzymes are living substances that work with certain minerals in the body to orchestrate all processes in the body. When properly formulated, enzymes can remove dead protein, toxins and other effluvia from the epidermis using a process called reverse osmosis. Over 50 years have been spent perfecting DMK's signature Enzyme Therapy treatments, utilising the beneficial effects of transfer messenger enzymes. It encourages blood circulation, oxygenation and lymphatic drainage, while simultaneously, through reverse osmosis, helping to flush away toxins and free radicals to stimulate collagen production. These enzymes strengthen the structural integrity of the skin to create a healthy environment for the cells to thrive in.

When you have a DMK treatment the DMK Skin Treatment, your therapist will locate your main concerns, thoroughly assess the skin from a functional and structural perspective and tailor a bespoke treatment, combining various DMK formulations, followed by our signature Enzyme Therapy Masque.

DMK Skin Treatments

DMK Enzyme Therapy Treatments act on three very important systems of the body:

The facial muscles.

The blood vessels of the skin.

The lymphatic system.

Every treatment you have with DMK will be different from the last and will be customized by our DMK Therapists to address your current skin condition and concerns on that day.

Treatment Menu

DMK Oxygenating Enzyme #1

€107

ENTRY LEVEL – Level #1 Enzyme Therapy is required for all new clients before advancing to levels #2, #3 and advanced peels.

DMK Enzyme Treatments work to oxygenate, detoxify, and improve your skin's ability to function by removing dead skin cells and impurities trapped in the skin. The results are brighter, younger-looking skin.

This Level #1 treatment is the starting point for all enzyme therapy treatments. This treatment improves the skin's ability to function by dissolving dead cells and impurities trapped within the skin and increases oxygenation to the tissues. This in turn restores vital cellular nutrition and oxygenation required for cellular regeneration. Enzyme Therapy stimulates collagen production, restoring structural integrity back to the skin whilst being suitable for a wide range of conditions such as ageing skin, sun damage, acne, rosacea, and pigmentation. This is also pregnancy safe.

DMK Cellular Revival Enzyme #2

€133

Level #2 treatment, a combination of the two treatments (Level #1 and #2 enzyme therapies) which now includes a more advanced skin resurfacing procedure that is specifically designed to suit your skin's needs and effectively remove redundant dead skin cells and build a healthier, happier skin function.

This can be customized to address almost any skin concern; aging, pigmentation, scarring, acne, and works deep within the skin at the cellular level to restore your skin to its peak condition, keeping your skin looking younger and feeling lifted, tightened, and toned.

DMK Enhanced Muscle Banding Enzyme #3

€142

Level #3 treatment – comprises of a pre-exfoliation and then all 3 enzyme therapy masques. This is a muscle banding advanced treatment, designed to lift, firm, tighten, and brighten tired sagging skin as well as restore optimal skin function which is the key to youthful, healthy, firmer skin. *The term "banding" refers to the technique used during the application of the DMK Enzyme Masque which is designed to act directly upon the muscles of the face, neck and décolleté.

Level #3 includes either 2 exfoliants or 2/3 masques and continues to give amazing results throughout.

DMK Teen Blackhead Buster (40min)

€52

Ideal for teenage oily, congested skin. If you are experiencing blackheads and breakouts this express but effective treatment will help leave the skin clean, clearer & more balanced. This deep cleansing facial includes a deep cleanse, exfoliation, steamed hot towels, 15 minutes of blackhead removal & moisture. We focus on helping teens start a healthy skincare routine.

DMK Adult Blackhead Buster (60min)

€91

Treat your skin to a deep pore, detoxing facial. Pollution, wind, sun, make-up, perspiration and hormones are just some of the day to day factors that our skin's have to contend with which can lead to clogging of the pores. This treatment will leave your skin feeling thoroughly cleansed, balanced and energised with pores feeling more refined and re-balanced. Included in this deep cleansing facial is a deep cleanse, exfoliation, detoxing & blackhead busting solutions, steamed hot towels, 15-20 minutes of blackhead removal, treatment mask and moisture.

Add ons may vary on all DMK Facial treatments.

This varies from €10 - €20 depending on your therapist's advice.

Peel & Reveal

€120

For those who want to significantly and quickly revise signs of ageing or target dark spots of pigmentation or scarring on the skin, this is the peel for you!!

An aesthetic approach to skin restoration, this peel works on ageing skins to restore the skin back to optimal health, encouraging it to perform like it did when it was younger. It can also be applied to areas of pigmentation using melanin inhibiting and brightening benefits, even perfect for that skin looking for that even glow! Working to draw the free water levels up in the skin, this peel also dislodges acne causing blockages and clears the pores. It also encourages dead skin cells to lift and shed away to revise the overall texture and appearance of the skin. The strength of the formulation is tailored by your therapist to suit your skin colour, texture, sensitivity, and condition. In just 10 days old damaged skin tightens, lifts and peels away to reveal younger-looking, smoother, optimally functioning skin.

This can be used for many different skin conditions, such as dehydration, ageing, wrinkles, hyper-pigmentation, open pores, oily, congested skins and sun damaged, thickened skins.

Ice Glow Peel

€110

This peel firstly oxygenates the blood and then delivers this blood, with healing enzymes and nutrients, to your skin. This helps increase the production of collagen, which improves the elasticity and firmness of the skin. Skin's immunity is now boosted, and toxins removed from through the lymphatic system, which helps in the reduction of the appearance of fine lines and wrinkles. Dead cells freeze, fracture, and fall away when exposed to this cold temperature peel. This process removes the top layer of dead skin cells while protecting the healthy living cells beneath stimulating collagen synthesis while breaking up pigment and brightening the skin to recreate a more youthful complexion.

This is suited for skin experiencing dermatitis, acne, rosacea, and other inflamed conditions. It is also ideal for hyperpigmentation and advanced sun damage.

Et Al Make Up - Meet the makeup that does more.

This brand new pioneering makeup from iiaa & Environ Skincare blends the science of skincare with the joy of makeup, while being responsible to the planet. They believe that makeup should not undo the visible benefits you are witnessing with your skincare routine, instead providing protective, hydrating qualities that last.

The Et Al story starts with two women, a scientist, and a makeup artist, backed by over 30 years of skin health science at the iiaa, designing the makeup they - and you - wish existed. A makeup that looks and feels amazing, but also does amazing. Lots of amazing. Protecting your skin today, nurturing your skin tomorrow, looking after the planet always. Simple products made of thousands of beautiful complexities. Created for and by our beautiful collective who inspire the journey, every day.

This brand new makeup line features Intelligent Skin Cream Foundation SPF 20, 3-In-1 Face Mist, Complexion Glow Blusher, Complexion Glow Eyeshadow & 100% synthetic and cruelty free brushes.

Medical Grade Laser Consultation

€50

Redeemable against courses only

Laser Hair Removal for women/men is the most effective method of removing unwanted hair. The question is why continue to wax and shave when you can have a smooth and silky body with a course of Laser Hair Removal. We use only the most advanced technology available, using what's called "medical-grade laser" which means we can guarantee successful results. A course of six treatments is generally recommended but you will notice a significant difference after just two or three sessions. We are the only clinic in the North East to boast 3 Candela Gentlase Pro Systems.

Red, blonde, grey or white hairs are not suitable to laser hair removal.

Call the salon for a consultation and patch test and be hair free.

Factors to consider when thinking of laser hair removal.

- Hair must be dark in colour.
- You must not have an active tan on the area and no fake tan should be on the skin 21 days prior to treatment.
- Your sessions are generally 4-6 weeks apart depending on the area.
- Clients are asked to shave the area 24 hours prior to treatment.
Please do not shave the same day as laser.
- No photosensitive medication (nurofen) 24 hours prior to treatment.
- The clinic is not responsible for shaving.
- Consultation Fee is redeemable against courses.

PHI Brows

PHI Brows is a manual skill of semi-permanent eyebrow drawing. The treatment is for anyone who wants to have perfect, symmetrical brows without the hassle of having to fill them in. Hair strokes are drawn on in the direction of the natural hair growth using pigment to achieve a hyper realistic look. The pigment is applied into the surface layer of the dermis using sterilized tools. The pigment is chosen so to match the natural hair colour. After the healing, the colour may become several hues lighter than the natural hair colour.

Treatment is performed with disposable sterile tools (PHIBrush), and pigments are produced in accordance with the highest standards (PHI Brows Microblading Pigments). Correction is done a month after the first treatment, because between 10 and 15% of drawn strokes disappear after the first treatment. Colour is extremely dark during the first 5 - 7 days. 7 days later, it loses 40 to 50% of its intensity. On average, expected time until a new colour refreshment is between 10 and 12 months. With oily skin it is up to 6 months. The healing is fully completed after 28 days and this is when we perform an obligatory addition of the pigment that has been lost. Post-treatments flow makes 70% of the treatments success. Consequently obey advice, because if you don't do so you may lose up to 80% of drawn strokes. Rinsing and applying creams is of great importance. Pain during the treatment is relative. Consultation and Patch test required upon booking this treatment.

HD Brows

€35

Our treatment begins with an in-depth consultation to agree the size, shape and the look you want, before starting to create the perfect, bespoke brows to fit your face.

We'll apply custom-blended colour and your Stylist will darken, lighten* or simply tone the natural shade of your brow to ensure your look is complimented, not overtaken. Our exclusive brow mapping formula then works to build your unique shape before using a combination of HD hair depilation techniques to create it. We'll then perfect your brows using our brilliant make up collection, along with a mini make up lesson to help the upkeep of your brows between appointments.

Worried you don't have enough hair to create a perfect arch? Don't worry! We'll put you on a regrowth programme and work with you every step of the way to get the brows of your dreams.

NEW

DMK Medi Pedi

DMK Medi Pedi (includes 1 Week Polish)

€75

The DMK MediPedi foot treatment removes calluses / corns / cracked heels / rough, dry hard skin build up / dark pigmented areas and any fungal or bacterial infections. MediPedi, the "Danné Alkaline Wash Callus Treatment" for the feet is exceptional. It leaves the most rough, cracked and callused feet feeling smooth and soft without the use of any blades or rasps.

Clinical trials have proven that Medi Pedi reduced further callus build up and left the feet smoother and softer for much longer. Unlike rasping and scraping techniques, which research has shown to cause a thickening of the skin that resulted in a short-lived / unsatisfactory solution to dry callused feet.

Today's clients are concerned with hygienic environments, cross contamination and risk of infection and rightly so. The Danné alkaline foot treatment is 100% hygienic, safe and best of all effective. Alleviating the concern in all these areas while achieving a more superior result than aggressively blading or rasping skin from the feet.

MediPedi, gently, yet very effectively and efficiently dissolves away dry hardened crusty skin build up on the feet.

MediPedi incorporates our unique alkaline solution, herbal pigment oil and Maximum Moisture. These products swell, dissolve and soften redundant cuticle build up and then returns the skin to a normal pH level.

Signature Glow Supreme Pedicure

€75

Step into a Margaret Dabbs pedicure for the ultimate transformative treatment for feet. This pedicure begins dry; delivering precise nail and cuticle work. An exfoliating mousse is applied leaving the skin feeling soft and supple. Using the power of organic Emu Oil, this treatment provides anti-fungal protection, which is infused throughout her line. Your feet will feel fresh, detailed and radiant. Nails are shined to a healthy finish, you may not want to polish but we do add a 1 week polish if you wish.

Signature Supreme Manicure

€45

This prescriptive manicure was developed with the health of the hands in mind. It will deliver lasting hydration to the skin and nails using the power of organic Emu Oil. Performed dry to begin with for precise cuticle work, until a creamy exfoliant is applied. Enjoy the aromas of geranium and mandarin while a cooling serum sinks into the skin. A hand and arm massage completes the experience, finishing with a layer of soothing hand protection spray. Nails are left looking bright and healthy, you may not want to polish but we do offer a 1 week Polish if you wish.

Tan Aftercare Advice:

- Your tan will begin to develop immediately after treatment.
- Do not shower or bathe for a minimum of 4 hours after your treatment.
 - The ideal development time is 8 hours.
- During the development time, do not participate in any activity which may cause perspiration.
- It is fine to leave the guide colour on overnight and wash in the morning.
- Guide colour is light to minimise guide colour transfer. If you do have guide colour transfer this will wash out of cotton but not so easily from man-made fibres or wool.

Tan Maintenance Tips:

- With the correct aftercare, your tan can last longer, apply Tan Primer every day to hydrate your skin and maintain your tan for longer.
- Exfoliate your skin at least once a week to avoid patchy fade.
- Do not rub but pat your skin dry after showering or bathing.
- Avoid swimming pools as chlorine can bleach the skin so your tan will fade faster.
